### EXPERIENCE

#### USER INTERFACE ENGINEERING (UIE)

Front End Web Developer Internship | Sept 2018 - Apr 2019

- Responsible for coding, A/B testing, sending 250,000+ emails weekly
- Designed/drafted and tested new email campaigns through iterative design process
- Edited/updated company sites via Wordpress, ExpressionEngine, HTML/CSS and Javascript
- Created a materials page for UIE's UI23 conference site
- Collaborated in building the agendas page for UI23 conference site
- Created blog posts and article pages for UIE's Playbook site
- Built a events calendar feature on UIE.com
- Edited images for websites or emails using Photoshop
- Had to learn Statamic with limited time to work on a UIE site

#### GENERAL ASSEMBLY

Web Development Immersive Program | Jan 2018 - Apr 2018

- Completed 4 web applications during a 500+ hour, 12 week full-time immersive bootcamp
- Created Geo-Footprint a traveling log where users can record their trips. For this project I really wanted to challenge myself and make the app responsive. The front end was made using JavaScript and the API was done using Ruby on Rails
- Created MotivationQ app a community of users that want to motivate each other. The API was done using Ruby on Rails and the front end was done using JavaScript. I wanted to challenge myself and have a better UX compared to my other projects

### EDUCATION

#### BACHELOR OF EXERCISE AND HEALTH SCIENCES

University of Massachusetts- Boston | 2012 - 2015

#### ASSOCIATE OF ARTS IN BUSINESS

Bunker Hill Community College | 2009 - 2011
